(d) Except as provided in section 7(h) of this chapter, in the absence of an express, contrary indication by the individual set forth in the refusal, an individual's unrevoked refusal to make an anatomical gift of the individual's body or part bars another person from making an anatomical gift of the individual's body or part.

Sec. 7. (a) Except as otherwise provided in subsection (g) and subject to subsection (f), in the absence of an express, contrary indication by the donor, a person other than the donor is barred from making, amending, or revoking an anatomical gift of a donor's body or part if the donor made an anatomical gift of the donor's body or part under section 4 of this chapter or an amendment to an anatomical gift of the donor's body or part under section 5 of this chapter.

(b) A donor's revocation of an anatomical gift of the donor's body or part under section 5 of this chapter is not a refusal and does not bar the person specified in section 3 or section 8 from making an anatomical gift of the donor's body or part under section 4 or 9 of this chapter.

(c) If a person other than the donor makes an unrevoked anatomical gift of the donor's body or part under section 4 of this chapter or an amendment to an anatomical gift of the donor's body or part under section 5 of this chapter, another person may not make, amend, or revoke the gift of the donor's body or part under section 9 of this chapter.

(d) A revocation of an anatomical gift of a donor's body or part under section 5 of this chapter by a person other than the donor does not bar another person from making an anatomical gift of the body or part under section 4 or 9 of this chapter.

(e) In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift under section 3 of this chapter, an anatomical gift of a part is neither a refusal to give another part nor a limitation on the making of an anatomical gift of another part at a later time by the donor or another person.

(f) In the absence of an express, contrary indication by the donor or other person authorized to make an anatomical gift under section 3 of this chapter, an anatomical gift of a part for one (1) or more of the purposes set forth in section 3 of this chapter is not a limitation on the making of an anatomical gift of the part for any of the other purposes of the donor or any other person under section 4 or 9 of this chapter.

**O**  
**P**  
**Y**

(g) If a donor who is an unemancipated minor dies, a parent of the donor who is reasonably available may revoke or amend an anatomical gift of the donor's body or part.

If an objection is known, the gift may be made only by a majority of the members of the class who are reasonably available.

(c) A person may not make an anatomical gift if, at the time of the decedent's death, a person in a prior class under subsection (a) is reasonably available to make or to object to the making of an anatomical gift.

- (1) amended only if a majority of the reasonably available members agree to the amending of the gift; or
- (2) revoked only if a majority of the reasonably available members agree to the revoking of the gift or if they are equally divided as to whether to revoke the gift.

(c) A revocation under subsection (b) is effective only if, before an incision has been made to remove a part from the donor's body or before invasive procedures have begun to prepare the recipient, the procurement organization, transplant hospital, or physician or technician knows of the revocation.

Sec. 10. (a) An anatomical gift may be made to the following persons named in the document of gift:

(c) If an anatomical gift of one (1) or more specific parts or of all parts is made in a document of gift that does not name a person described in subsection (a) but identifies the purpose for which an anatomical gift may be used, the following rules apply:

the gift passes to the appropriate tissue bank that has an agreement to recover donated tissue from patients that die within the hospital. The tissue bank is considered to be the custodian of the donated tissue.

(3) If the part is an organ and the gift is for the purpose of:

- (A) transplantation; or
- (B) therapy;

the gift passes to the appropriate organ procurement organization that has an agreement to recover donated organs from patients who die within the hospital. The procurement organization is considered to be the custodian of the donated organs.

(4) If the part is an organ, an eye, or tissue from a patient who dies within a hospital and the gift is for the purpose of research or education, the gift passes to the appropriate procurement organization that has an agreement to recover donated organs, tissue, or eyes from patients who die within the hospital.

(d) For the purpose of subsection (c), if there is more than one (1) purpose of an anatomical gift set forth in the document of gift but the purposes are not set forth in any priority, the gift must be used for transplantation or therapy, if suitable. If the gift cannot be used for transplantation or therapy, the gift may be used for research or education.

(e) If an anatomical gift of one (1) or more specific parts is made in a document of gift that does not name a person described in subsection (a) and does not identify the purpose of the gift, the gift may be used only for transplantation, research, or therapy, and the gift passes in accordance with subsection (g).

(i) If an anatomical gift does not pass pursuant to subsections (a) through (h) or the decedent's body or part is not used for transplantation, therapy, research, or education, custody of the body or part passes to the person under obligation to dispose of the body or part.

(j) A person may not accept an anatomical gift if the person knows that the:

(1) gift was not effectively made under section 4 or 9 of this chapter; or

(2) decedent made a refusal under section 6 of this chapter that was not revoked.

(k) For purposes of subsection (j), if a person knows that an anatomical gift was made on a document of gift, the person is considered to know of any amendment or revocation of the gift or any refusal to make an anatomical gift on the same document of gift.

(l) If the gift is made by the donor to a specified donee, the will, card, or other document, or an executed copy thereof, may be delivered to the donee to expedite the appropriate procedures immediately after death. Delivery is not necessary to the validity of the gift. The will, card, or other document, or an executed copy thereof, may be deposited in any hospital, bank or storage facility, or registry office that accepts it for safekeeping or for facilitation of procedures after death. On request of any interested party upon or after the donor's death, the person in possession shall produce the document for examination.

(n) Any document of gift which has not been delivered to the donee may be revoked by the donor in the manner set out in subsection (m) or by destruction, cancellation, or mutilation of the document and all executed copies thereof.

(o) Any gift made by a will may also be amended or revoked in the manner provided for amendment or revocation of wills, or as provided in subsection (m).

(p) Except as otherwise provided in subsection (a)(2), this chapter does not affect the allocation of organs for transplantation or therapy.

Sec. 11. (a) The following persons shall make a reasonable search of an individual who the person reasonably believes is dead or near death in a hospital for a document of gift or other information identifying the individual as a donor or as an individual who made a refusal:

- (1) An organ procurement organization.

- (3) An eye bank.
- (4) If no other source of the information is immediately available, a hospital, as soon as practical after the individual's arrival at the hospital.

(4) individual identified in section 8(a) of this chapter; may petition a court with probate jurisdiction in the county where the remains of the individual who is the subject of the petition are located, or the county in which the individual died, for the information referred to in subsection (b).

(b) A person identified in subsection (a) may petition the court with probate jurisdiction specified in subsection (a) to determine whether the individual:

- (1) made a written anatomical gift under section 4 of this chapter or IC 9-24-17; or
- (2) made a written revocation of an anatomical gift under section 5 of this chapter or under IC 9-24-17.

(c) If the court with probate jurisdiction determines under subsection (b) that the individual made a written anatomical gift that was not subsequently revoked in writing by the individual, the court shall order that the anatomical gift of an organ, tissue, or an eye be recovered.

(d) The court with probate jurisdiction may modify or waive notice and a hearing if the court determines that a delay would have a serious adverse effect on:

- (1) the medical viability of the individual; or
- (2) the viability of the individual's anatomical gift of an organ, tissue, or an eye.

Sec. 13. (a) As used in this section:

- (1) "Administrator" means a hospital administrator or a hospital administrator's designee.
- (2) "Gift" means a gift of all or any part of the human body made under this chapter.
- (3) "Representative" means a person who is:

or a tissue donor.

(d) The administrator shall inform the representative of the procedures available under this chapter for making a gift whenever:

- (1) an individual dies in a hospital;
- (2) the hospital has not been notified that a gift has been authorized under section 4 of this chapter; and
- (3) a procurement organization determines that the individual's body may be suitable of yielding a gift.

(e) If:

- (1) an individual makes an anatomical gift on the individual's driver's license or identification card under IC 9-24-17; and
- (2) the individual dies in a hospital;

the person in possession of the individual's driver's license or identification card shall immediately produce the driver's license or identification card for examination upon request, as provided in section 10(l) of this chapter.

(f) A gift made in response to information provided under this section must be signed by the donor or made by the donor's telegraphic, recorded telephonic, or other recorded message.

(g) When a representative is informed under this section about the procedures available for making a gift, the fact that the representative was so informed must be noted in the decedent's medical record.

(h) A person who fails to discharge the duties imposed by this section is not subject to civil liability but may be subject to criminal liability or administrative sanctions.

Sec. 14. (a) A document of gift need not be delivered during the donor's lifetime to be effective.

(b) Upon or after an individual's death, a person in possession of a document of gift or a refusal to make an anatomical gift with respect to the individual shall allow examination and copying of the document of gift or refusal by a person authorized to make or object to the making of an anatomical gift with respect to the individual or by a person to which the gift could pass under section 10 of this chapter.

Sec. 15. (a) When a hospital refers an individual at or near death to a procurement organization, the organization shall make a reasonable search of the records of:

- (1) the bureau of motor vehicles;
- (2) the equivalent agency to the bureau of motor vehicles in another state;

**C**  
**O**  
**P**  
**Y**

(3) the Indiana donor registry; and

(4) any other registry that the organization knows exists for the geographical area in which the individual resides to ascertain whether the individual has made an anatomical gift.

(b) A procurement organization must be allowed reasonable access to information in the records of the bureau of motor vehicles to ascertain whether an individual at or near death is a donor.

(c) When a hospital refers an individual at or near death to a procurement organization, the organization may conduct any reasonable examination necessary to ensure the medical suitability of a part that is or could be the subject of an anatomical gift for transplantation, therapy, research, or education from a donor or a prospective donor. During the examination period, measures necessary to ensure the medical suitability of the part may not be withdrawn unless the hospital or procurement organization knows that the individual expressed a contrary intent.

(d) Unless prohibited by law other than this chapter, at any time after a donor's death, the person to whom a part passes under section 10 of this chapter may conduct any reasonable examination necessary to ensure the medical suitability of the body or part for its intended purpose.

(e) Unless prohibited by law other than this chapter, an examination under subsection (c) or (d) may include an examination of all medical and dental records of the donor or prospective donor.

(f) Upon the death of a minor who was a donor or had signed a refusal, unless a procurement organization knows the minor is emancipated, the procurement organization shall conduct a reasonable search for the parents of the minor and provide the parents with an opportunity to revoke or amend the anatomical gift or revoke the refusal.

(g) Upon referral by a hospital under subsection (a), a procurement organization shall make a reasonable search for any person listed in section 8 of this chapter having priority to make an anatomical gift on behalf of a prospective donor. If a procurement organization receives information that an anatomical gift to any other person was made, amended, or revoked, it shall promptly advise the other person of all relevant information.

(h) Subject to section 10(i) of this chapter, IC 36-2-14-21, and IC 36-2-14-22.6, the rights of the person to whom a part passes under section 10 of this chapter are superior to the rights of all others with respect to the part, including a part from a person

whose death within a hospital is under investigation by a coroner. The person may accept or reject an anatomical gift in whole or in part. Subject to the terms of the document of gift and this chapter, a person who accepts an anatomical gift of an entire body may allow embalming, burial or cremation, and use of remains in a funeral service. If the gift is of a part, the person to which the part passes under section 10 of this chapter, upon the death of the donor and before embalming, burial, or cremation, shall cause the part to be removed without unnecessary mutilation.

(i) Neither the physician who attends the decedent at death nor the physician who determines the time of the decedent's death may participate in the procedures for removing or transplanting a part from the decedent.

(j) A physician or technician may remove a donated part from the body of a donor that the physician or technician is qualified to remove.

Sec. 16. Each hospital in Indiana shall enter into agreements or affiliations with procurement organizations for coordination of procurement and use of anatomical gifts.

Sec. 17. (a) A person who acts in accordance with this chapter is not liable for the act in a civil action or administrative proceeding.

(b) Neither the person making an anatomical gift nor the donor's estate is liable for any injury or damage that results from the making or use of the gift.

(c) In determining whether an anatomical gift has been made, amended, or revoked under this chapter, a person may rely upon representations of an individual listed in section 8(a)(2), 8(a)(3), 8(a)(4), 8(a)(5), 8(a)(6), 8(a)(7), or 8(a)(8) of this chapter relating to the individual's relationship to the donor or prospective donor unless the person knows that the representation is untrue.

(d) A health care provider is immune from civil liability for following a donor's unrevoked anatomical gift directive under this chapter or IC 9-24-17.

(e) A hospital or a recovery agency is immune from civil liability for determining in good faith and in compliance with this section that:

- (1) an individual made a written anatomical gift; or
- (2) an individual subsequently made a written revocation of an anatomical gift.

(f) A person who, in good faith reliance upon a will, card, or other document of gift, and without actual notice of the

amendment, revocation, or invalidity of the will, card, or document:

- (1) takes possession of a decedent's body or performs or causes to be performed surgical operations upon a decedent's body; or
- (2) removes or causes to be removed organs, tissues, or other parts from a decedent's body;

is not liable in damages in any civil action brought against the donor for that act.

**Sec. 18. (a)** A document of gift is valid if executed in accordance with:

- (1) this chapter;
- (2) the laws of the state or country where it was executed; or
- (3) the laws of the state or country where the person making the anatomical gift was domiciled, has a place of residence, or was a national at the time the document of gift was executed.

(b) If a document of gift is valid under this chapter, the law of this state governs the interpretation of the document of gift.

(c) A person may presume that a document of gift or amendment of an anatomical gift is valid unless that person knows that it was not validly executed or was revoked.

**Sec. 19. (a)** The bureau of motor vehicles shall cooperate with a person that administers any donor registry that this state establishes, contracts for, or recognizes for the purpose of transferring to the donor registry all relevant information regarding a donor's making, amendment to, or revocation of an anatomical gift.

(b) A donor registry must:

- (1) allow a donor or other person authorized under section 4 of this chapter to include on the donor registry a statement or symbol that the donor has made, amended, or revoked an anatomical gift;
- (2) be accessible to a procurement organization and to coroners to allow it to obtain relevant information on the donor registry to determine, at or near death of the donor or a prospective donor, whether the donor or prospective donor has made, amended, or revoked an anatomical gift; and
- (3) be accessible for purposes of subdivisions (1) and (2) seven (7) days a week on a twenty-four (24) hour basis.

(c) Personally identifiable information on a donor registry about a donor or prospective donor may not be used or disclosed without the express consent of the donor, prospective donor, or person that

**C  
o

made the anatomical gift for any purpose other than to determine, at or near death of the donor or prospective donor, whether the donor or prospective donor has made, amended, or revoked an anatomical gift.

(d) This section does not prohibit any person from creating or maintaining a donor registry that is not established by or under contract with the state. Any such registry must comply with subsections (b) and (c).

**Sec. 20. (a) As used in this section:**

(1) "Advance health care directive" means a power of attorney for health care or a record signed by a prospective donor containing the prospective donor's direction concerning a health care decision for the prospective donor.

(2) "Declaration" means a record signed by a prospective donor specifying the circumstances under which a life support system may be withheld or withdrawn from the prospective donor.

(3) "Health care decision" means any decision made regarding the health care of the prospective donor.

(b) If a prospective donor has a declaration or advance health care directive, unless the directive expressly states the contrary, hospitals must use measures necessary to allow a procurement agency to determine the medical suitability of an organ for transplantation or therapy by insuring that life support is not withdrawn from the prospective donor before consultation with the appropriate procurement agency to determine medical potential for donation. The procurement organization shall make every effort to determine donor potential within approximately two (2) hours from the time the procurement organization is contacted by the hospital. A hospital may, in accordance with a donor's declaration or advance health care directive, withdraw life support from the prospective donor if the procurement organization has not made a determination of donor potential within six (6) hours from the time the procurement organization is contacted by the hospital.

**Sec. 21. (a) A coroner shall cooperate with procurement organizations to maximize the opportunity to recover anatomical gifts for the purpose of transplantation, therapy, research, education, or training.**

(b) If a coroner receives notice from a procurement organization that an anatomical gift might be available or was made with respect to a decedent whose body is under the

**C  
o

jurisdiction of the coroner and a postmortem examination is going to be performed, unless the coroner denies recovery in accordance with IC 36-2-14-22.6(f), the coroner or designee shall, when practicable, conduct a postmortem examination of the body or the part in a manner and within a period compatible with its preservation for the purposes of the gift. If a coroner conducts a postmortem examination outside of a compatible period, the coroner must document why examination occurred outside of a compatible period. It is considered sufficient documentation if the coroner documents that additional time was necessary to conduct an adequate medicolegal examination.

(c) A part may not be removed from the body of a decedent under the jurisdiction of a coroner for transplantation, therapy, research, or education unless the part is the subject of an anatomical gift. The body of a decedent under the jurisdiction of the coroner may not be delivered to a person for research or education unless the body is the subject of an anatomical gift. This subsection does not preclude a coroner or pathologist from performing the medicolegal investigation upon the body or parts of a decedent under the jurisdiction of the coroner or from using the body or parts of a decedent under the jurisdiction of the coroner for the purposes of research, education, or training required by the coroner or pathologist.

SECTION 19. IC 36-2-14-19 IS AMENDED TO READ AS FOLLOWS [EFFECTIVE JULY 1, 2007]: Sec. 19. (a) As used in this section, "cornea" includes corneal tissue.

(b) As used in this section, "decedent" means a person described in section 6(a)(1) through 6(a)(5) of this chapter.

(c) As used in this section, "eye bank" means a nonprofit corporation:

- (1) organized under Indiana law;

- (1) The decedent's corneas are not necessary for successful completion of the autopsy.

(4) A representative of the eye bank, authorized by the trustees of the eye bank to make requests for corneas, has done the following:

(A) Within six (6) hours after the time of death, made a reasonable attempt to:

- (i) contact any of the persons listed in the order of priority specified in ~~IC 29-2-16-2(b)~~; **IC 29-2-16.1-8**; and

(B) Submitted to the coroner:

- (i) a written request for the donation by the coroner of corneas of the decedent subject to autopsy under section 6(d) of this chapter; and
- (ii) a written certification that corneas donated under this section are intended to be used only for cornea transplant.

(5) The removal of the corneas and their donation to the eye bank will not alter a gift made by:

(A) the decedent when alive; or

(B) any of the persons listed in the order of priority specified in ~~IC 29-2-16-2(b)~~; **IC 29-2-16.1-8**;

to an agency or organization other than the eye bank making the request for the donation.

(6) The coroner, at the time the removal and donation of a decedent's corneas is authorized, does not know of any objection to the removal and donation of the decedent's corneas made by:

(A) the decedent, as evidenced in a written document executed by the decedent when alive; or

(B) any of the persons listed in the order of priority specified in ~~IC 29-2-16-2(b)~~; **IC 29-2-16.1-8**.

available medical and social history of a decedent whose body is under the jurisdiction of the coroner. If the decedent's body or part is medically suitable for transplantation, therapy, research, or education, the coroner shall release postmortem examination results to the procurement organization. The procurement organization may make a subsequent disclosure of the postmortem examination results or other information received from the coroner only if relevant to transplantation or therapy.

(b) The coroner may conduct a medicolegal examination by reviewing all medical records, laboratory test results, x-rays, other diagnostic results, and other information that any person possesses about a donor or prospective donor whose body is under the jurisdiction of the coroner which the coroner determines may be relevant to the investigation.

(c) A person that has any information requested by a coroner under subsection (b) shall provide that information as expeditiously as possible to allow the coroner to conduct the medicolegal investigation within a period compatible with the preservation of parts for the purpose of transplantation, therapy, research, or education.

(d) If an anatomical gift has been or might be made of a part of a decedent whose body is under the jurisdiction of the coroner and a postmortem examination is not required, or the coroner determines that a postmortem examination is required but that the recovery of the part that is the subject of an anatomical gift will not interfere with the examination, the coroner and procurement organization shall cooperate in the timely removal of the part from the decedent for the purpose of transplantation, therapy, research, or education.

(e) If an anatomical gift of a part from the decedent under the jurisdiction of the coroner has been or might be made, but the coroner, in consultation with a pathologist, initially believes that the recovery of the part could interfere with the postmortem investigation into the decedent's cause or manner of death or interfere with the preservation or collection of evidence, the coroner and pathologist shall consult with the procurement organization or physician or technician designated by the procurement organization about the proposed recovery. After consultation, the coroner may allow the recovery, delay the recovery, or deny the recovery.

(f) Before the removal procedure, the coroner or designee may allow recovery by the procurement organization to proceed, or, if

the coroner or designee reasonably believes that the part may be involved in determining the decedent's cause or manner of death or, in tissue procurement cases, if the coroner or designee determines that, for evidentiary purposes, the body must remain undisturbed prior to autopsy, deny recovery by the procurement organization. The coroner or designee must be present at the scene before denying the recovery of a part. When practicable, the coroner and pathologist shall work with the procurement organization to facilitate removal of a part following any postmortem examination of the decedent.

(g) If the coroner or designee denies recovery under subsection (e) or (f), the coroner or designee shall:

- (1) explain in a record the specific reasons for not allowing recovery of the part;
- (2) include the specific reasons in the records of the coroner and forensic pathologist; and
- (3) provide a record with the specific reasons to the procurement organization and the state department of health.

(h) If the coroner or designee allows recovery of a part under subsection (d), (e), or (f), the procurement organization shall do the following:

- (1) At the request of the coroner or designee and when practicable, perform diagnostic studies that would aid in documenting the presence or absence of injuries.
- (2) Cause the physician or technician who removes the part to explain in a signed record the condition of the part, including the presence or absence of any injuries to the part or any surrounding tissue or organs.
- (3) Provide a copy of the record described in subdivision (2) to the coroner and the investigating law enforcement agency.
- (4) Cause the physician or technician who removes the part to photograph, collect, preserve, and maintain the appropriate chain of custody of any evidence that is found during procurement.
- (5) Cause the physician or technician who removes the part to collect blood and other bodily fluid samples as directed by the coroner or designee.
- (6) Cause the physician or technician who removes the part to, upon the request of the coroner or designee, photograph, biopsy, or provide any other information and observations concerning the part or body that would assist in the postmortem examination.

**P**

**(i) If a coroner or designee must:**

- (1) be present at a removal procedure under subsection (f); or**
- (2) perform duties at times other than those that are usual and customary for the coroner or designee to maximize tissue or eye recovery under IC 29-2-16.1-21(b);**

**at the request of the coroner or designee, the procurement organization that requested the recovery of the part shall reimburse the coroner or designee for the additional costs incurred by the coroner or designee to comply with subsection (f) or IC 29-2-16.1-21(b).**
